The World's Greatest Hobby on Tour is a model railroad show designed to introduce the general public to the hobby in an exciting, family-oriented atmosphere. Each show includes manufacturers, hobby shops, operating train layouts, interactive displays and workshops. It is also the only train show to feature a Thomas the Tank Engine riding train for the kids. Each show provides an in-person introduction to the World's Greatest Hobby: model railroading!

Since the shows began in December of 2004, over 1.5 million people have attended! For most of these people, it was their first experience with model railroading. These shows broaden the exposure model railroading receives among the general public. The four to five shows we run each year are all amongst the highest attended shows each year in the industry and are uniquely positioned to focus on attracting new customers.
